**Smarter Imaging. Sharper Diagnoses**

## About Logic-X

*"Designed with precision housing, crafted by experienced professionals for modern medical environments."*

At Logic-X, we develop advanced medical imaging solutions designed to improve diagnostic precision and workflow efficiency.

With a strong focus on innovation, quality, and ease of use, our systems are trusted by healthcare professionals across Europe and the Middle East.

Together, we're building the future of smarter diagnostics.

## C-650/C-750

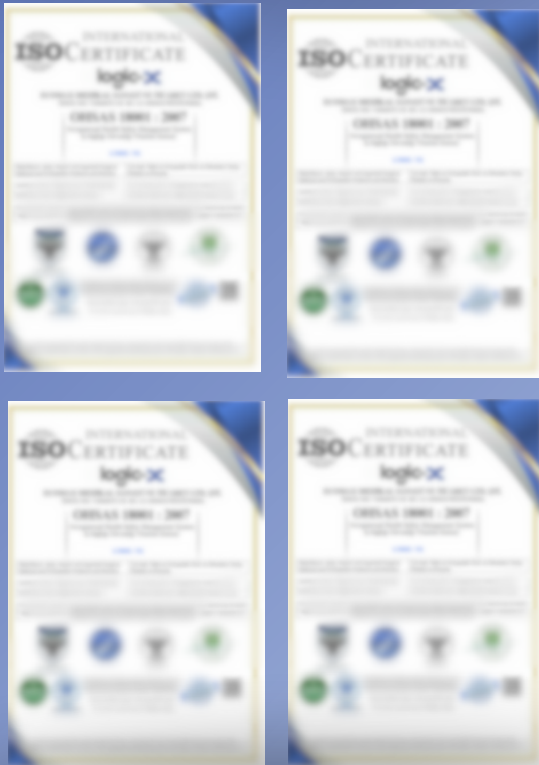

Slim & Powerful C-Arm System for High-Precision Fluoroscopy and Surgical Imaging

logic-x

## Features

- Real-time fluoroscopy with clear image quality
- Compact design for easy movement in clinics and ORs
- Adjustable X-ray parameters for various procedures
- User-friendly touch control panel
- Supports both radiography and fluoroscopy modes

Specification	C-650	C-750
Power (kW)	5Kw	5Kw
Flat panel detector size	9" x 9"	12" x12"
Pixel pitch (um)	205 um	150 um
KV range (kV)	40-125/step length1	40-125/step length1
mA range (mA)	1-100mA	1-100mA
Focal spots (mm)	0.3-0.6	0.3-0.6
SID (mm )	1000mm	1000mm
